

The First Mobile App that Lets Nurses Earn CEUs in Minutes on the Job or on the Go

Now nurses can earn high-quality, affordable CEUs by completing short learning activities on their smartphones while treating patients, during their commute, in the bleachers, or over a lunch break.

This easy-to-use, on-the-go mobile app allows nurses to gain access to health-related research, programs, and certificates of completion — all with the goal of helping them earn CEUs anytime, anywhere.

HOW IT WORKS

Convenient and Flexible. CEHQ takes continuing education beyond a traditional online method. Nurses select a subject, read vetted articles, answer questions in real-time, and progress toward earning credits. And it all happens in just minutes.

Accredited. CEHQ is approved by the boards of nursing in every state requiring CEUs for nurses. (IBON CEU Provider No. 370)

Vetted, High-Quality Sources. CEHQ provides content from a database of unbiased, trusted medical sources compiled by the University of Iowa Carver College of Medicine. Sources include Elsevier, the National Library of Medicine, CDC, NIH, and other academic and governmental sources.

Affordable. Download the app and get one FREE credit to start. Like it? Pay just \$69 for unlimited credits in a year or \$99 for two years. Or, pay \$10 per credit if just a few are needed. Customized payment plans are available for healthcare organizations that want to provide CEHQ to their nursing staff.

Print and Go. CEHQ saves certificates of completion for free so nurses can download them from one source in minutes.

Download this trusted, on-the-go app and get started by earning one FREE credit at mycehq.com
